October Minutes: <http://aneala.lochac.sca.org/assets/council/council-2019-10.pdf>

Approved: Isolde

Seconded: Elizabeth R.

## **Officers**

### **Baron & Baroness**

Agostino has been to much, Elizabeth will be catching up with coming to more soon. Somebody is looking to donate a children's castle. Looks to be made from layers of corrugated cardboard. Looks like it could be a lot of fun.

Is this likely to be something we can store?

Richard: May be an issue with transporting for stewards.

Elizabeth will look into this further as it sounds really cool.

Please also send your reports to B&B.

Royal attendants - Nathan to organise.

## **Seneschal**

Abertridwr distribution of assets document tabled at council.

Catherine

Are they serious?

Shit use of grammar.

With less than 20 people responding, ie less than a quarter of the original group,

Have divided up all of the cash, excellent.

Most of the assets going to Dragons Bay makes sense, making the Baron and Baroness retain any Abertridwr heraldic items makes no sense. No closing date for storing these items. Current groups can not be asked to do things for another closed group.

This is not reasonable, these items should not be stored by anybody, they need to be disposed of.

These is a clear will, ie a majority of the 20 people, to keep Pencampwr type event. This is then suggested that other groups would be required to run this event. Kingdom to provide funding from the Kingdom's share of Abertridwr's funds. This seems unreasonable.

Richard provided some qualification of how the event is run or decided and how the funds is attainable. Some discontent regarding how this is interpreted.

Kilic expressed concern about how this is decided and issues it may create between the events.

Catherine: should give that component to the Crown without any expectations of the local groups.

Ilaria agreed with this concept.

Agostino: Given how well off financially the local groups are, it's strange to think we need encouragement to run an event that weekend.

Laura: It felt like a weekend we are likely to run events, this seems like an incentive for Crowns to come.

Leonie: not far from other major events may be difficult for Crowns.

Agostino: Most of event description set in stone, apart from the weekend. Kingdom still shouldn't be telling groups how to run events.

Branwen: With Dragon's Bay now running this event, makes no sense to have Aneala involved.

Kilic: Also additionally the Barony is expected to support the event financially. This is a concern that we are being told to finance another groups event.

Julian - if this is not lawful, can they change the split to reflect more money going to the two groups?

Nathan - This is a survey of 20 people from a group that folded. They should not have any say in the running of successful groups.

Kilic: Didn't support this break up and distribution, anecdotally feels this wasn't a majority outcome.

Catherine: need to poll the larger group before setting any expectations for what that group is required to run.

Richard: Normal nature of the poll is to gauge intent with the Kingdom making a decision guided by the results. This is the best outcome that they could come up with.

Kilic: Insufficient communication with the people affected.

Richard: feels the intent of this was to enable the Abertridwr funds to be available back to the group to prevent it being swallowed by Kingdom. This suggestion of the June long weekend event was given as an example of the type of event they would like the Crown to come to. They have made a genuine attempt to not be prescriptive of what event should be run. This is an attempt to keep the money in Western Australia. Feels like the responses around the table suggest that Aneala isn't wanting to be a team player. Even for the people who have been bitten by this before, it is important to stay a team player. Admittedly missed the requirement to maintain the Abertridwr group regalia which we should not accept. This needs to be distributed or disposed of.

Illaria: Believes this is in good intent with suggesting the kind of event to be run, but the wording is not reflective of the intent.

Catherine: may be enough to redraft, but this is still adding work to people including at Kingdom level to control these funds for the next ten years. Might be better to use this for a project to do some good without being a burden. This is a dangerous precedent to be set at the Kingdom level.

Leonie: Agrees that this is in good intent, did feel it unreasonable for the Baron and Barones to maintain regalia. With the \$500 for Crown travel, the Crown will make up their mind if they come. If the Crown funds are lost I don't think we care.

Richard: Kingdom Exchequer has been made aware, this suggests they are happy with the obligations.

Nathan: Feels this could be assigned purely to the discretion of Dragon's bay as they are running the event.

Branwen: Feels the event is not being run as a definite Dragon's Bay event, doesn't feel we are involved/welcome in the event.

Elizabeth: Will put something as not prepared to take the regalia.

Richard: Council needs to decide not to take regalia.

Catherine: As Council we need to inform the Kingdom we are happy with the distribution of funds to Aneala & Dragon's Bay, and that Dragon's bay are given all of the physical assets. Need to state that we are not comfortable that assets are stored in perpetuity for a group that may not ever reform. Need to state that we are not happy with the allocation of funds in Kingdoms share being a trust to be used as a burden for the next ten years to be maintained. The groups fund a similar amount to Crowns to travel so this is not required.

Richard: Feels the first point re dispersal of physical assets to Dragons Bay and the 3 way split of funds had unanimous agreement..

Similar agreement that not happy for the Barony to store Abertridwr's heraldic items. Possibly the Kingdom can provide an address for them to be sent to.

Third Item, Aneala have no wish to be part of the choice in the distribution of the Kingdom's share of the funds.

We also are concerned about the precedent this sets in allocating Kingdom funds travelling to only a small part of the Kingdom.

Seneschal has stated that he intends to seek a successo as he will have other commitments. There is sufficient time to go through finding a successor.

Branwen: will be sad to see Richard leave, he has brought a great deal to the group.

## Reports:

### Dragons Bay:

#### ACHIEVEMENTS

=====

Dragons Bay Officer Ovation was a great success as it paid homage to the achievements of those who had maintained Dragons Bay. It also provided ceremony for the new Officers, receiving their tokens of office and receiving thanks for volunteering their time and energy. This was well received by the populace, so a second one shall be held in 2020 to welcome formally the second wave of Officers.

Demonstrations have been well attended by the populace and showcased skills such as illumination and static displays of A&S projects including leatherwork and garb. Photographs drew in attention, and populace who were performing spoon carving and illumination caused people to stop and engage.

These demo's have brought in new recruits and generated interest. Dragons Bay invoiced City of Armadale for its attendance at Highland Gathering, and the Rockingham Regional Environmental Centre for the Festival attendance, which helps to increase funds in the account.

The Demo held at the Comet Bay College was a great success that will become a larger incursion event at the school, with Dragons Bay invited to return to add atmosphere to the event.

## **PLANS**

=====

**Baldivis Country Fair Demo: 2 November**

**Champion of the Bow: 17 November**

**Cooks Guild: 22 November**

**Dragons Games Day and Yule Feast: 14 December**

**A new sign up page has been instated to start to encourage newcomers to sign up with a small monthly newsletter going out to remind people of events upcoming.**

**A second Dragons Bay Officer Ovation will welcome the next wave of Officers and celebrate those who didn't receive their tokens at the first DBOO.**

**The Town Hall Meeting to discuss the June 2020 weekend shall be held soon (pending dates from the venue). This will encourage people to speak their mind and participate in creating the framework for the event.**

**An all-female fighters group is starting to form, with interest from at least 8 ladies. This should generate more momentum for armouring workshops and perhaps an invite extended to a female Knight to visit and teach fighters.**

## **GENERAL COMMENTS**

=====

The Baron and Baroness continue to give great support to their Canton. Likewise, Dragons Bay aims to support the Barony by assisting with demo's and in the kitchen at their Championship event. I look forward to fostering this harmonious relationship.

## **Knight Marshal:**

### **Events:**

#### **Aneala Championship - 27-30/09**

At this event there was held tournaments to find Aneala's next champions of the Sword, Rapier, and Bow. While we had 6 entrants to the archery, there were only 3 entrants in both the armoured and rapier combat tournament lists. There are likely many reasons why attendance was low, but one I had heard a few people mention was that they felt unable to fulfil the role properly, and so would not want to enter a tournament they didn't want to win. In the end, we had Lord Konrad Hilderbrandt win the armoured combat tournament, Lord Zaven Zeitountsi win the Rapier tournament, and Lord Wolfgang Germanicus win the Archery.

#### **Einherjar (November War) - 9/11**

This was held as a "war day" run by Lord Konrad Hilderbrandt, with war training on during the morning run by THL Lokki Rekr, and small skirmishes run in the afternoon for as long as the combatants involved were able to continue fighting on what proved to be a hotter-than-average day. The event was held in the parklands surrounding Wandl Progress Association community hall, which allowed for some interesting fighting as there was a small area which was "lightly wooded" with native trees and minimal ground debris to worry about. This provided some much-needed shade along with interesting terrain to work with. With the war teams being no greater than 4 a side, including the two combat archers, and team members occasionally swapping sides to try new things, team scores were not tracked.

### **Training:**

Official training for Aneala occurs on Sunday mornings at Lake Monger Primary School, every week that does not compete with a group event, and allows for armoured combat, rapier, and archery.

Numbers attending armoured combat training have been a little low, trending with similar numbers to the previous quarter but with lower attendance reaching as low as 2 armoured combatants but the highs still getting as high as 8 or so. Many of those who engage in armoured combat have found themselves busy outside of SCA life, but I'm confident that the long-term players do come to training whenever they can. We have also seen a new member attend training and show some interest in archery and armoured combat thanks to having seen us at a demo where our presence was quite minimal (3x3m area static display). From the couple of times she has swung a sword she is showing quite a bit of promise and seems keen to continue training.

No injuries or any other issues (serious armour failures, serious weapon failures, loss-of-temper situations) were experienced with this group during training sessions.

### **Injury and Incident Reports**

None

### **General Comments**

Within the past month we have had many demos run, and far more demos than we would normally run in a year, which has resulted in a higher than anticipated number of trainings being cancelled. I intend on raising it as a discussion point at our council meetings to get some feedback what others think about this policy. The demos we've had have resulted in new faces appearing in the Barony and the Canton, but I'm not sure if those that go to the demos are the same that go to training. I think it's worth asking if we have enough people locally to run demos as well as training concurrently, as we don't want to not find new members but we also don't want to miss training too often. Next report I'll put in the outcome of any discussions that happen

The collegians training at Aneala's regular Sunday training have been making significant progress, and I remain hopeful that we can get another two or three of them authorised before the end of the year. After assisting the college work out if they had Combat Archery approved mesh for their loaner helmets, we also managed to get one collegian to attend the Einherjar event and participate in war activities for the first time. Hopefully the other collegians hear about how much fun he had and decide to focus on authorising once their studies for the year conclude.

I'm still looking for someone to replace my position as Knight Marshal. I had one person interested for a time but it never eventuated as they are playing quite rarely at this time, and another person is looking to fill the role if their tenure as Reeve ends before my extension on the role does. At this point I'm actively asking people who regularly attend events and have time to get to council meetings to avoid having an officer step from one role into another.

### **Report from College of St Basil the Great:**

**Marshal's Report for Company of St Basil, 2nd quarter.**

In this Quarter Heavy training has been continuing regularly, though with some gaps due to the assessments conflicting timetables of some regular members. None of the new fighters have been attending training, with only sporadic involvement at the start of the semester. All of the regular fighters have been consistently attending heavy training, with around 5-6 attendees for each session. Rapier has seen low numbers, usually only 2-3 fighters, and is often cancelled due to low attendance, this being more common in the later part of the quarter. Matt has been authorised for the heavy list in September and Samuel has been authorised for rapier in August. There have been no major injuries of note or any other incidents.

**Mundane Name: Adam Blower**

**SCA Name: Galen Wulfric**

**Member No: 83612**

**Date: 14th October 2019**

**Report/Activity:**

**This reporting period has seen some activity among the fighter enthusiasts of Dragons Bay.**

1. College of St Basil hosted the College Challenge which was attended by both Heavy and Rapier Fighters and was good to have a fun kick around tourney.
2. Weekly training has been occurring at Mistress Slaine's and I's residence in Success with good turnout averaging 8 people with a minimum 4 fighters on hand. Training has been alternating between Heavy and Rapier so will be able to produce fighters for both fields which is encouraging.
3. Sunday Trainings for fighters has been minimal in this reporting cycle but is not a reflection of lack of interest. There are a lot of people with additional activities in their lives which makes weekend training difficult however, discussions with the various people indicates this should pick back up in the next month or two.
4. I am in the process of planning tourneys and other events for the future to which I will be applying to the Rowany Fighter Auction Funds for assistance. More to follow when I have the plans set.

All in all, Dragons Bay fighting stocks continue to grow at a satisfactory pace and as Knight Marshal I am happy with this progress.

## **Canton Archery Captain's Report**

Andy Hann has reported ^Your details: Member Number: 87313 Expiry: 2020/03/31 Indem: 2020/03/31 SCA name: Andrew Mundane name: Andrew Hahn Contact details: alpha.hyde@gmail.com 0421 462 950 P.O.Box 3276 Broadway Nedlands 6009 I have held the position of Captain of Archers since 2019/07/25 We hold weekly gatherings at our lair (Wandi Community Hall) on Sunday from now 0900 for 2 hours. Typically practice consists of two or three targets set at 20, 30 and 40 yards. Occasionally 50 yard and clout ranges are done as well. We have between 2 and 10 people attend and fortunately a LARP group commences at the same venue as we conclude our practice, we have enticed some to give it a try. Additionally we have enticed an individual from the passing road to check us out and another individual to attend a weekend training session from one of our demos. Currently there are 3 active members with Target Archery Marshals status and have heard that another individual wishes to obtain their credentials so they can TAM as

well. An IKAC was held at the Anealean **Championship** however no members of Dragons Bay were able to attend. There will be extra motivation for future participation".

The yellow high lighted area is incorrect, it was at a normal practice(Aug) that held the IKAC. At the Anealean Championship, 4 archers were from Dragon's Bay, of which one was Wolfgang.

No one has died, although a few furry animals were shot numerous times.

Yours in Service

Mistress Branwen of Werchesvorde

## Chatelaine

There have been only three enquiries from newcomers during this period and all three contacted me via the sca email. One had witnessed the training at Lake Monger and was curious to know more, but did not respond to the replies I gave. The other two, both continued to show an interest and went on to attend Einherjar (Nov 9) to view the war and stay on for the evening bal d'Aneala.

Emma had attended training at Lake Monger and showed an interest in trying the heavy fighting. She discovered the SCA online and first contacted me for information on September 18<sup>th</sup>. She has two small children and I'm sure she felt welcome.

Julian discovered the SCA after following another members you tube channel, after which he contacted me via the website email on 19<sup>th</sup> October. He is interested in the arts and sciences side of what we do. Although we did not have our usual blacksmithing day this month (which he was interested in attending) he came to our house for a visit anyway because he lives close by. Richard and I had a long chat to him about SCA activities, showed him some of what we do and he seemed keen to become more involved.

Because the training at Lake Monger is in a public position I am wondering if a promotional sign of some kind with a couple of brochures might be a good idea? Otherwise, the website seems to be working in terms of attracting enquiries.

I have been alerted to the fact that the brochures still have a reference to Abertridwr with an internet address. It would not be hard to blank this out with a sticker, and I am happy to do this to the rest of our brochure supply if that's ok with council.
